Sir,

Adverting to para 1 of your letter D November last, I have the honor to submit for Co -tion the undermentioned estimates for sundry re in the Chamundesvari temple on Chamundi Hill:

1.Estimate for repairs &c., of Chámundésva temple.....

2.Estimate for repairs to the Yágasála &c. of the Mahábaléśvara temple.....

These estimates were advisedly delayed in order to enable me to verify by personal inspection the necessity and urgency of the proposed works; and I am now able to say that they are indis--pensable to make the temple efficient.

2. The present kitchen is destructive to the eyes of the kitchen servants, as no smoke escapes from it. A sky light or two will not suffice, ~~as~~ 'bratties' being mostly in use; there ought to be free escapes for the smoke. These are provided in the estimate for Rs 1053/- by raising that portion of the stone roof, which over hangs the fire places. This will supersede the

estimate for 33-8-1, sanctioned by Government (vide Govt Proceedings No.1238-9 of 13-4-1898) but which has not been executed on the ground that the work was not enough.

3. Adjoining the Yagashala and kitchen are 2 low-roofed rooms, which are at present dark, damp and most unhealthy. Most of the car materials are stored therein, but they har-bour snakes &c., and it is proposed to repair and improve them by paving them and giving them windows and new doors.

4. It is also proposed that opportunity should be taken to pave the side aisles of the temple with slabs of burnt stone.

5. An estimate is likewise submitted for Rs140/- in order to carry out sundry indispensable repairs to the Maha-balesvara temple. If they are not done at once, they will probably cost more by and by.

6. Under the above circumstances, I beg that the sanc-tion of Government may be obtained at your early convenienc for these estimates, aggregating Rs1193/-

I have the honor to be,
Sir,
Your most obedient servant,

Palace Controller.
